TRAVELLING TO DENHAM

There is so much to see and do on your way into Denham. The first attraction stop is the stromatolites as you follow the World Heritage Drive from North West Coastal Highway,

The worlds oldest living life forms, the **Stromatolites** may just look like rocks in the water but they're actually a fascinating micro-organisms that live and breath! Currently, the best time to see them is at low tide as the boardwalk is being repaired.

The old telegraph station and tearooms are also worth the stop at Hamelin Pool Caravan Park.

As you continue driving towards Denham, pop-into **Shell Beach**. With only two beaches in the world like this, comprised solely of gossamer thin, tiny white coquina shells no bigger than your smallest fingernail. It is a unique experience not to be missed.

ARRIVING IN DENHAM

Immerse yourself in the wonderful history of Shark Bay and surrounds. Visit the **Shark Bay World Heritage Discovery and Visitor Centre** to experience Shark Bay through the eyes of its people. Learn about our shipwrecks, wildlife, the land and our Malgana people.

Looking for more history? Wander the **Discovery Trail** at your leisure and follow the fascinating local cultural and historic knowledge. The trail will take you pass the old goal and buildings made from shells. After you have finished the walk, cool-off with an iconic jetty jump into our crystal-clear waters.
